Summary

Data scientist with expertise in machine learning, NLP, and big data analytics. Experienced in developing predictive models and automating workflows.

Skills

- Python (Pandas, NumPy, Scikit-learn)
- Machine Learning & Deep Learning
- NLP & Text Analytics
- SQL, Spark, Hadoop
- Data Visualization (Tableau, Matplotlib)

Experience

Senior Data Scientist | AI Solutions | 2021 - Present

- Built an NLP-based chatbot that reduced customer service workload by 35%.
- Developed predictive models that improved fraud detection accuracy by 20%.

Data Analyst | Data Insights | 2018 - 2021

- Conducted data mining and feature engineering for ML models.
- Automated reporting, saving 10+ hours of manual work weekly.

Education

M.S. in Data Science | University of Chicago | 2018
